# US Endocrinology

Established: September 2005 Frequency: Bi-annual  
Current edition: Volume 17 Issue 1, 2021

## Aims and Scope

- *US Endocrinology* enables time-pressured physicians to stay abreast of key advances and opinion in endocrine practice in the USA.
- *US Endocrinology* comprises balanced and comprehensive articles written by leading authorities, addressing the most important and salient developments in the endocrinology field.
- *US Endocrinology* endeavors to support physicians, clinicians, and related healthcare professionals in continuously developing their knowledge, effectiveness, and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP-3, and COPE guidelines.

## Structure and Format

- *US Endocrinology* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, case reports, editorials, special reports, and original research.
- The structure of each edition of the publication comprises section categories determined by the Managing Editor. The degree of coverage assigned to each category is the decision of the Managing Editor and, in part, reflects the views of the Editorial Board.
- All articles disclose any author conflicts of interest along with any funding, financial support, and medical writing assistance.
- Each edition of *US Endocrinology* is published in full online at [www.touchENDOCRINOLOGY.com](http://www.touchENDOCRINOLOGY.com)

## Editorial Expertise

*US Endocrinology* is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities from a variety of endocrine disciplines.
- Invited contributors who are recognized authorities in their respective fields.
- Peer review—conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

## Peer Review

- On submission, all articles are assessed by the Managing Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Managing Editor identifies at least two appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer-review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes, or rejected.
- The Managing Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

## Submissions and Instructions to Authors

- The Managing Editor commissions articles with guidance from the Editorial Board and unsolicited articles are welcomed.
- The Managing Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals. Please contact the Managing Editor for further details.
- 'Instructions for Authors' information is available for download at [www.touchENDOCRINOLOGY.com](http://www.touchENDOCRINOLOGY.com)

## Reprints

All articles included in *US Endocrinology* are available as reprints (minimum order 500). Visit [touchENDOCRINOLOGY.com](http://touchENDOCRINOLOGY.com) for more information.

## Distribution and Readership

*US Endocrinology* is distributed bi-annually through controlled circulation to healthcare and pharmaceutical professionals in the field based in the USA.

## Free-to-access

All articles are free-to-access, which allows everyone in the endocrinology field to download published articles for free.

## Abstracting and Indexing

*US Endocrinology* is abstracted, indexed, and listed in Embase, Genamics JournalSeek, Google Scholar, IndexCopernicus, Scientific Indexing Services (SIS), Scopus, and Summon by Serial Solutions.

## Online

[www.touchmedicalmedia.com](http://www.touchmedicalmedia.com) provides clinicians and other industry professionals with a free resource of articles from over nine titles, spanning seven therapy areas including cardiology, endocrinology, immunology, neurology, oncology, ophthalmology and respiratory. Also available online at [www.touchENDOCRINOLOGY.com](http://www.touchENDOCRINOLOGY.com) is *US Endocrinology's* sister publication, *touchREVIEWS in Endocrinology*.

## Society Partners

*touchENDOCRINOLOGY* has developed very valuable society partnerships with the most respected not-for-profit medical societies both in Europe and the USA. These partnerships are key as *touchENDOCRINOLOGY* helps to promote awareness of these medical societies while also providing free-to-access, peer-reviewed articles and multimedia content to the society members, which ensures that the community is kept up-to-date with the latest cutting-edge content and opinion from world-renowned doctors.

## About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of fully referenced, free-to-access, peer-reviewed journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. □
