touchREVIEWS in Endocrinology

Established: December 2005 Frequency: Bi-annual
Current edition: Volume 19 Issue 1, 2023

Aims and scope

- *touchREVIEWS in Endocrinology* enables time-pressured physicians to stay abreast of major advances and opinions in endocrine practice in Europe.
- *touchREVIEWS in Endocrinology* comprises balanced and comprehensive articles, addressing the most important and salient developments in the endocrinology field.
- *touchREVIEWS in Endocrinology* endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- Comprehensive bibliographies for each article mean that *touchREVIEWS in Endocrinology* is an informative and valuable reference tool for use throughout the year.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP 2022, and COPE guidelines.

Structure and format

- *touchREVIEWS in Endocrinology* is a peer-reviewed, free-to-access, bi-annual journal comprising expert interviews, review articles, case reports, editorials, special reports and original research.
- The structure of each edition of the publication comprises section categories determined by the Managing Editor. The degree of coverage assigned to each category is the decision of the Managing Editor, and in part reflects the views of the Editorial Board.
- All articles state any author disclosures along with any funding, financial support, and/or medical writing assistance.
- Each edition of *touchREVIEWS in Endocrinology* is published in full, online at www.touchENDOCRINOLOGY.com

Editorial expertise

touchREVIEWS in Endocrinology is supported by various levels of expertise.

- Guidance from an Editorial Board consisting of leading authorities from a variety of endocrine disciplines.
- Invited contributors who are recognized authorities from their respective fields.
- Peer review – conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of editors and technical editors.

Peer review

- On submission, all articles are assessed by the Managing Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Managing Editor identifies at least two appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes or not accepted for publication.
- The Managing Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

Submissions and instructions for authors

- The Managing Editor commissions articles with guidance from the Editorial Board and unsolicited articles are welcomed.
- The Managing Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals. Please contact the Editor for further details: editorialmanager@touchmedicalmedia.com
- Instructions for authors are available from the website: www.touchENDOCRINOLOGY.com

Distribution and readership

touchREVIEWS in Endocrinology is distributed globally, on a bi-annual basis, through controlled circulation to healthcare and pharmaceutical professionals in the field.

Abstracting and indexing

touchREVIEWS in Endocrinology (formerly *EU Endocrinology*) is abstracted, indexed and listed in PubMed Central, Embase, EBSCO, Genamics JournalSeek, Google Scholar and IndexCopernicus.

Copyright

Authors transfer copyright of their article to Touch Medical Media, who publish the article as free-to-access to registered users.

Free-to-access

All articles are free-to-access, which allows anyone in the endocrinology field to download published articles free of charge

Online resources

www.touchmedicalmedia.com provides clinicians and other industry professionals with free resources spanning nine therapy areas including cardiology, endocrinology, haematology, immunology, infectious diseases, neurology, oncology, ophthalmology and respiratory and pulmonary diseases.

Society partners

touchENDOCRINOLOGY.com has developed very valuable society partnerships with the most respected not-for-profit medical societies both in Europe and the USA. These partnerships are key as touchENDOCRINOLOGY.com helps to promote awareness of these medical societies whilst also providing free-to-access, peer-reviewed articles and multimedia content to the society members, which ensures that the industry is kept up-to-date with the latest cutting-edge content and opinion from world-renowned doctors.

About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of free-to-access, peer-reviewed journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. 

Contents

Foreword

1 Foreword

Ides Colin

Endocrino-Diabetology Research Unit, Department of Internal Medicine, Centre Hospitalier Régional Mons-Hainaut/Groupe Jolimont, Mons Belgium/Groupe Helora, Mons, Belgium

Editorial

Diabetes

2 The AACE 2022 Guideline: An Academic Appraisal

Saptarshi Bhattacharya¹ and Sanjay Kalra^{2,3}

1. Department of Endocrinology, Indraprastha Apollo Hospitals, New Delhi, India; 2. Department of Endocrinology, Bharti Hospital, Karnal, India; 3. University Center for Research & Development, Chandigarh University, Chandigarh, India

4 Insulin Icodec Weekly: A Basal Insulin Analogue for Type 2 Diabetes

Harpreet S Bajaj¹ and Ronald M Goldenberg²

1. LMC Diabetes & Endocrinology, Brampton, Ontario, Canada; 2. LMC Diabetes & Endocrinology, Concord, Ontario, Canada

Reviews

Diabetes

7 Is Type 2 Diabetes Mellitus a Behavioural Disorder? An Evidence Review for Type 2 Diabetes Mellitus Prevention and Remission through Lifestyle Modification

Matthias Li,¹ Mohammad Sadiq Jeeyavudeen,² Ganesan Arunagirinathan² and Joseph Pappachan^{1,3}

1. The University of Manchester Medical School, Manchester, UK; 2. Western General Hospital, Edinburgh Centre for Endocrinology & Diabetes, Edinburgh, UK; 3. Lancashire Teaching Hospitals NHS Trust and Manchester Metropolitan University, Manchester, UK

16 Emerging Evidence for the Use of Antidiabetic Drugs, Glucagon-like Peptide 1 Receptor Agonists, for the Treatment of Alzheimer's Disease

Ides M Colin,¹ Lidia W Szczepanski,¹ Anne-Catherine Gérard^{1,2} and Jose-Antonio Elosegi³

1. Endocrino-Diabetology Research Unit, Department of Internal Medicine, Centre Hospitalier Régional Mons-Hainaut/Groupe Jolimont, Mons Belgium/Groupe Helora, Mons, Belgium; 2. Group of Animal Molecular and Cellular Biology, Louvain Institute of Biomolecular Science and Technology, Université Catholique de Louvain, Louvain-La-Neuve, Belgium; 3. Neurology Unit, Centre Hospitalier Universitaire Ambroise Paré, Mons Belgium/Groupe Helora, Mons, Belgium

25 Effect of Intermittent Fasting on Glycaemic Control in Patients With Type 2 Diabetes Mellitus: A Systematic Review and Meta-analysis of Randomized Controlled Trials

Suresh K Sharma,¹ Shiv Kumar Mudgal,² Sanjay Kalra,³ Rakhi Gaur,² Kalpana Thakur⁴ and Rajat Agarwal⁵

1. College of Nursing, All India Institute of Medical Sciences, Jodhpur, Rajasthan, India; 2. College of Nursing, All India Institute of Medical Sciences, Deoghar, Jharkhand, India; 3. Department of Endocrinology, Bharti Hospital and BRIDE, Karnal, Haryana, India; 4. College of Nursing, All India Institute of Medical Sciences, Rishikesh, Uttarakhand, India; 5. Department of Cardiothoracic Surgery, All India Institute of Medical Sciences, Deoghar, Jharkhand, India

Contents

33 Early Recognition of Overweight Hyperglycaemia May Improve Clinical Outcomes in Type 2 Diabetes

Anand Chockalingam,^{1,2} Pandiyan Natarajan,³ Smrita Dorairajan⁴ and Uzma Khan⁵

1. Division of Cardiovascular Medicine, University of Missouri, Columbia, MO, USA; 2. Cardiology Section, Harry S Truman VA Medical Center, Columbia, MO, USA; 3. Nova IVF Fertility, Chettinad Super Speciality Hospital (Retired), Chennai, India; 4. Nephrology Section, Harry S Truman VA Medical Center, Columbia, MO, USA; 5. Division of Endocrinology, University of Missouri, Columbia, MO, USA

38 Glucagon-like Peptide-1 Receptor Agonists for the Treatment of Type 2 Diabetes in Youth

Casey Berman,¹ Alaina P Vidmar^{1,2} and Lily C Chao^{1,2}

1. Division of Endocrinology, Department of Pediatrics, Children's Hospital Los Angeles, Los Angeles, CA, USA; 2. Keck School of Medicine of University of Southern California, Los Angeles, CA, USA

46 Epigenetics of the Pathogenesis and Complications of Type 2 Diabetes Mellitus

Velmurugan Mannar,¹ Hiya Boro,² Deepika Patel,³ Sourabh Agstam,⁴ Mazhar Dalvi⁵ and Vikash Bundela⁶

1. Department of Medicine, Aarupadai Veedu Medical College, Puducherry, India; 2. Department of Endocrinology and Metabolism, Aadhar Health Institute, Hisar, India; 3. Department of Endocrinology, Mediheal Hospital, Nairobi, Kenya; 4. Department of Cardiology, VMMC and Safdarjung Hospital, New Delhi, India; 5. Department of Endocrinology, Mediclinic Al Noor Hospital, Abu Dhabi, United Arab Emirates; 6. Department of Gastroenterology, Aadhar Health Institute, Hisar, India

Obesity

54 The Important Role of Intermuscular Adipose Tissue on Metabolic Changes Interconnecting Obesity, Ageing and Exercise: A Systematic Review

I Gusti Putu Suka Aryana,¹ Ivana Beatrice Paulus,² Sanjay Kalra,^{3,4} Dian Daniella,⁵ Raden Ayu Tutu Kuswardhani,⁶ Ketut Suastika⁷ and Sony Wibisono⁸

1. Geriatric Division, Department of Internal Medicine, Faculty of Medicine, Udayana University/Prof. I Goesti Ngoerah Gde Ngoerah Teaching Hospital, Denpasar, Bali, Indonesia; 2. Wangaya General Hospital, Denpasar, Bali, Indonesia; 3. Bharti Hospital, Karnal, India; 4. Department of Research, Chandigarh University, Chandigarh, India; 5. Department of Internal Medicine, Faculty of Medicine, Udayana University/ I Goesti Ngoerah Gde Ngoerah Teaching Hospital, Denpasar, Bali, Indonesia; 6. Geriatric Division, Department of Internal Medicine, Faculty of Medicine, Udayana University/ I Goesti Ngoerah Gde Ngoerah Teaching Hospital, Denpasar, Bali, Indonesia; 7. Division of Endocrinology and Metabolism, Department of Internal Medicine, Faculty of Medicine, Udayana University/ I Goesti Ngoerah Gde Ngoerah Teaching Hospital, Denpasar, Bali, Indonesia; 8. Division of Endocrinology and Metabolism, Airlangga University, Soetomo Teaching Hospital, Surabaya, Indonesia

Liver Disorders

60 Resmetirom: An Orally Administered, Small-molecule, Liver-directed, β -selective THR Agonist for the Treatment of Non-alcoholic Fatty Liver Disease and Non-alcoholic Steatohepatitis

Gres Karim¹ and Meena B Bansal²

1. Department of Medicine, Mount Sinai Israel, New York, NY, USA; 2. Division of Liver Diseases, Department of Medicine, Icahn School of Medicine at Mount Sinai, New York, NY, USA

Reproductive Endocrinology

71 Polycystic Ovary Syndrome as Metabolic Disease: New Insights on Insulin Resistance

Alessandro D Genazzani¹ and Andrea R Genazzani²

1. Gynaecological Endocrinology Center, Department of Obstetrics and Gynaecology, University of Modena and Reggio Emilia, Modena, Italy; 2. Department of Obstetrics and Gynaecology, University of Pisa, Pisa, Italy

Contents

Thyroid Disorders

78 Thyrotoxic Cardiomyopathy: State of the Art

Juan Eduardo Quiroz-Aldave,¹ María del Carmen Durand-Vásquez,² Carlos Jhonatan Lobato-Jeri,³ Juan-Manuel Muñoz-Moreno,⁴ Diana Carolina Deutz Gómez Condori,⁵ Sofia Pilar Ildefonso-Najarro,⁵ Felipe Contreras-Yametti,⁶ Francisca Zavaleta-Gutiérrez,⁷ Luis Concepción-Urteaga⁸ and Marcio José Concepción-Zavaleta⁹

1. Division of Medicine, Hospital de Apoyo Chepén, Chepén, Perú; 2. Division of Family Medicine, Hospital de Apoyo Chepén, Chepén, Perú; 3. Division of Cardiology, Clínica La Luz, Lima, Perú; 4. Division of Cardiology, Hospital Nacional Edgardo Rebagliati Martins, Lima, Perú; 5. Division of Endocrinology, Hospital Nacional Guillermo Almenara Irigoyen, Lima, Perú; 6. Division of Internal Medicine, WellStar Health System Cobb Hospital, Austell, GA, USA; 7. Division of Neonatology, Hospital Belén de Trujillo, Trujillo, Perú; 8. School of Medicine, Universidad Nacional de Trujillo, Trujillo, Perú; 9. Division of Endocrinology, Clínica Javier Prado, Lima, Perú

Original Research

Diabetes

85 An Overview of Risk Factors for Diabetic Foot Amputation: An Observational, Single-centre, Retrospective Cohort Study

Burak Yuzuguldu,¹ Bugra Zengin,² Ilgin Yildirim Simsir³ and Sevki Cetinkalp³

1. Division of Pediatric Oncology, Dana-Farber Cancer Institute, Boston, MA, USA; 2. Division of Pediatric Surgery, Department of Surgery, Children's Hospital of Pittsburgh, University of Pittsburgh School of Medicine, Pittsburgh, PA, USA; 3. Division of Endocrinology and Metabolism Disorders, Faculty of Medicine, Ege University, Izmir, Turkey

Case Reports

Endocrine Oncology

94 Surgical Treatment of Solitary Metachronous Adrenal Metastasis from Urothelial Carcinoma of the Urinary Bladder

Dimitrios Politis,¹ Panagiota Konstantakou,² Konstantinos Bramis,¹ Krystallenia I Alexandraki,² Ariadni Spyroglou,² George Mastorakos,² Ioannis Anastasiou,³ Ioannis Papaconstantinou¹ and Meletios A Dimopoulos⁴

1. Second Department of Surgery, Aretaieion University Hospital, Medical School, National and Kapodistrian University of Athens, Greece; 2.
