Professor of Obstetrics and Gynaecology, University of Pisa, Pisa, Italy

Solomon Tesfaye

Consultant Physician and Honorary Professor of Diabetic Medicine, University of Sheffield, Sheffield, UK

Peter Trainer

Professor of Endocrinology, University of Manchester, Manchester, UK

Elena Varlamov

Assistant Professor, Oregon Health and Science University, Portland, OR, USA

Virginia Valentine

Sage Specialty Care for Diabetes and Endocrine, Albuquerque, NM, USA

touchREVIEWS in Endocrinology

Established: December 2005 Frequency: Bi-annual
Current edition: Volume 20 Issue 1, 2024

Aims and scope

- *touchREVIEWS in Endocrinology* enables time-pressured physicians to stay abreast of major advances and opinions in endocrine practice.
- *touchREVIEWS in Endocrinology* comprises balanced and comprehensive articles, addressing the most important and salient developments in the endocrinology field.
- *touchREVIEWS in Endocrinology* endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- Comprehensive bibliographies for each article mean that *touchREVIEWS in Endocrinology* is an informative and valuable reference tool for use throughout the year.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP 2022, and COPE guidelines.

Structure and format

- *touchREVIEWS in Endocrinology* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, original research, case reports, editorials, expert interviews and practice pearls.
- The structure of each edition of the publication comprises section categories determined by the Editor. The degree of coverage assigned to each category is the decision of the Editor, and in part reflects the views of the Editorial Board.
- All articles disclose any author financial and non-financial relationships and activities, along with any funding, financial support and medical writing assistance.
- Each edition of *touchREVIEWS in Endocrinology* is published in full online at www.touchENDOCRINOLOGY.com

Editorial expertise

touchREVIEWS in Endocrinology is supported by various levels of expertise.

- Guidance from an Editorial Board consisting of leading authorities from a variety of endocrine disciplines.
- Invited contributors who are recognized authorities from their respective fields.
- Peer review: conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Peer review

- On submission, all articles are assessed by the Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Editor identifies appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes or not accepted for publication.

- The Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

Submissions and instructions for authors

- The Editor commissions articles with guidance from the Editorial Board and unsolicited articles are welcomed.
- The Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals. Please contact the Editor for further details: editorialmanager@touchmedicalmedia.com
- Instructions for authors are available from the website www.touchENDOCRINOLOGY.com

Distribution and readership

touchREVIEWS in Endocrinology is distributed globally, on a bi-annual basis, through controlled circulation to healthcare and pharmaceutical professionals in the field.

Abstracting and indexing

touchREVIEWS in Endocrinology (formerly *EU Endocrinology*) is abstracted, indexed and listed in PubMed Central, Embase, EBSCO, Genamics JournalSeek, Google Scholar and IndexCopernicus.

Copyright

Authors transfer copyright of their article to Touch Medical Media, who publish the article as free-to-access to registered users.

Free-to-access

All articles are free-to-access, which allows anyone in the endocrinology field to download published articles free of charge.

Online resources

www.touchmedicalmedia.com provides clinicians and other industry professionals with free resources spanning nine therapy areas including cardiology, endocrinology, haematology, immunology, infectious diseases, neurology, oncology, ophthalmology, and respiratory and pulmonary diseases.

Society partners

touchENDOCRINOLOGY.com has developed very valuable society partnerships with the most respected not-for-profit medical societies internationally.

These partnerships are key as touchENDOCRINOLOGY.com helps to promote awareness of these medical societies while also providing free-to-access, peer-reviewed articles and multimedia content to the society members, which ensures that the industry is kept up-to-date with the latest cutting-edge content and opinion from world-renowned doctors.

About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of free-to-access, peer-reviewed journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. □
